July 24, 2007

The purpose of this letter is to acknowledge the excellent experience Mary Lin has had with BOND Community Federal Credit Union. The Mary Lin students have been “Banking with BOND” for ten years. The program has proven to be very successful for the students, teachers and the community.

When students “Bank with BOND” they are excited. The excitement stems from being able to reach established goals in terms of saving money. In addition, the students become excited when they feel the sense of responsibility in learning the importance of saving money. The teachers often incorporate the academic lessons of saving money learned from banking with the BOND into their math instruction.

The parents and community have embraced BOND Credit Union for the past ten years. Parents deem the lessons Bank with BOND teaches as essential in terms of responsibility, saving money, and overall organizational skills. The parents and community appreciate the real-life learning experiences Bank with BOND offers for the students. The real-life learning experiences align well with Mary Lin’s expectations to create authentic learning experiences for the students.

I highly recommend schools to participate in the opportunity to Bank with BOND.

Brian D. Mitchell, Principal
